

**A Memorandum of the Cooperation Talk
Between Qingdao University (China) and Tambov State
University (Russia)**

On the basis of the previously signed cooperation agreement between Qingdao University and Tambov State University named after G.R. Derzhavin the parties have agreed to deepen and broaden their links between the universities in the following fields:

1. Cooperative publication of academic journals

Tambov State University and Qingdao University will co-publish journals on Socio-Economic problems together with one or two universities from a third country.

Tambov State University is responsible for the application of ISSN number and edition work. As a copartner, Qingdao University is to decide on its members of the editor group, to submit materials for the journal in due time, to write synopses to the articles both in Chinese and in English, and to do other work concerned. All the parties involved should make joint effort to ensure the quality of the theses so that the journal may become an academically influential one.

2. Personnel exchange

1) cooperative cultivation of Ph. D

Every two years Qingdao University accepts two doctoral students (Tambov State University teachers at work) who are engaged in the study of Sino-Russian modern history, and allows them to carry through scientific research and collection of data in Qingdao University for a year.

Every two years Tambov State University is to admit one teacher or researcher from Qingdao University who knows Russian and to allow him to study for the doctor's degree in Sino-Russian Modern Relationship. Tambov State University will assist in completion of academic program within two years.

2) Qingdao University is to invite Tambov State University experts in physics and chemistry to engage in teaching or cooperative scientific research. And Qingdao University Academic Exchange Funds is to pay for their work according to the concerned Chinese regulations related to the treatment of experts of culture and education.

3) Both Universities are to send superior experts as visiting scholars to the other university for academic exchange or cooperative research.
